

Be the Light (Up to Us)

Lyrics & Music © 2016 R.W. Singer

D G A
It's up to us to be the light, fight for what's right, shine strong and bright

D A D
It's up to us to be the light

D G A
It's up to us to lead with way, on the dark days, when loved ones stray,

D A D
It's up to us to lead with way

G D G D A
How can I be the light? How are we gonna lead?

D G A
It's up to us to be our best, rise to the test, lay fear to rest,

D A D
It's up to us to be our best

D G A
It's up to us, we are the ones, the time has come to beat the drums

D A D
It's up to us, we are the ones

G D G D A
How can our best lay fear to rest? How can everyone beat the drums?

f#m bm G A
When people in power greedily abuse it,

f#m bm G A
how are people with love like ours gonna use it?

(solo) D G A D A D

D G A
It's up to us to take a stand, for the oppressed man, woman and children

D A D
It's up to us to take a stand

D G A
It's up to us to trust in love, when push comes to shove, show what we're made of,

D A D
It's up to us to trust in love

G D G D
How can we band and take a stand? How can anyone trust in love?

A G A D G A D

How are we gonna lead, and how can I be the light? How can I be the light?

G A D

How can I be the light?
